Interests or Hobbies: Spending time with my wife Hannah and my son Indie, reading, traveling, trying new food, playing basketball and volleyball, playing video games, watching movies, and playing with my cats Willow and Autumn.

Cardinals/Cubs/Neither: My side of the family prefers the Cubs. Hannah's side prefers the Cardinals. I prefer watching basketball or soccer. Go Bulls and USWNT!!

What has been the most difficult aspect of the COVID pandemic for you? Having limited in-person contact with friends and family has been a challenge, but on the other hand, all the extra time at home has allowed me to spend more time with my wife and son. I've been able to watch him grow firsthand. I have also become close to family abroad through video chatting.

What would you like to tell your students during this difficult time? Stay positive, wear your masks in public.... You may feel alone, but remember, we are all in the same boat. Be there for your friends, and we will all get past this.

What is the Best Part of Being a Teacher at Pawnee? I love having lunch with my colleagues. They are like a second family to me. I really enjoy having my student from 7th grade all the way through senior year of high school. I really get to know my kids over the years, and I love being a small part of helping them grow up.
