Interests or Hobbies: Watching Jacob play sports, making homemade caramels, reading.

Favorite Musical Artist or Band: Not one favorite; I listen to a bit of everything.

Why I decided to go into education: I have always loved working with children. I enjoy working with numbers and helping people learn. As much as I would love to try to teach kindergartens accounting, high school is the level best suited for me.

What is the Best Part of Being a Teacher at Pawnee? I enjoy teaching at Pawnee because classes are small enough to really get to know students and the best way they learn. The ability to watch students grow and the relationships developed make teaching enjoyable.
