## **Information Workshop**

### **Accommodations at LLCC: What you need to know!**

This session will provide students and families with a clear understanding of how to effectively use academic accommodations to support their success in college. Participants will learn about the accommodation request process, how to communicate with faculty and disability services, and strategies for self-advocacy. The session will also cover common accommodations, such as extended testing time, note-taking assistance, and audio presentation of materials. By the end, students should feel confident in navigating the process for utilizing their accommodations in their academic journey.

*Sangamon County Transition Planning Committee (TPC) has a mission to improve the transition process from school to successful post-secondary outcomes. Our committee consists of schools, agencies, not for profits, and parents supporting transition aged youth with disabilities in Sangamon County. We do this by networking, exchanging information, facilitating needed change and identifying unique transition needs in our area.*

**Please contact SASSED (217-786-3250) or District 186 (217-525-3368) with any questions.**
